

**INVESTMENT PHILOSOPHY**

Alta Capital Management believes companies with high free cash flow growth yield superior risk-adjusted investment returns. The tenets of our process encompass the following:

- a. Quality factors are key to long-term alpha generation
- b. Growth in earnings and free cash flow drives stock prices
- c. Sustainability of earnings growth, profitability and competitive advantages drives future cash flow generation
- d. Superior FCF growth with lower EPS variability leads to more resilient, risk-adjusted outcomes

**KEY CHARACTERISTICS**

- Robust cash flow generation
- Secular earnings growth with lower earnings per share variability
- Sustainable competitive advantages
- Profitability throughout the economic cycle
- Financial flexibility
- Valuation consciousness

**INVESTMENT PROCESS**

Companies are identified through a fundamental, bottom-up investment process, beginning with a universe screen that seeks to identify companies that demonstrate financial strength, strong profitability, and a favorable track record.

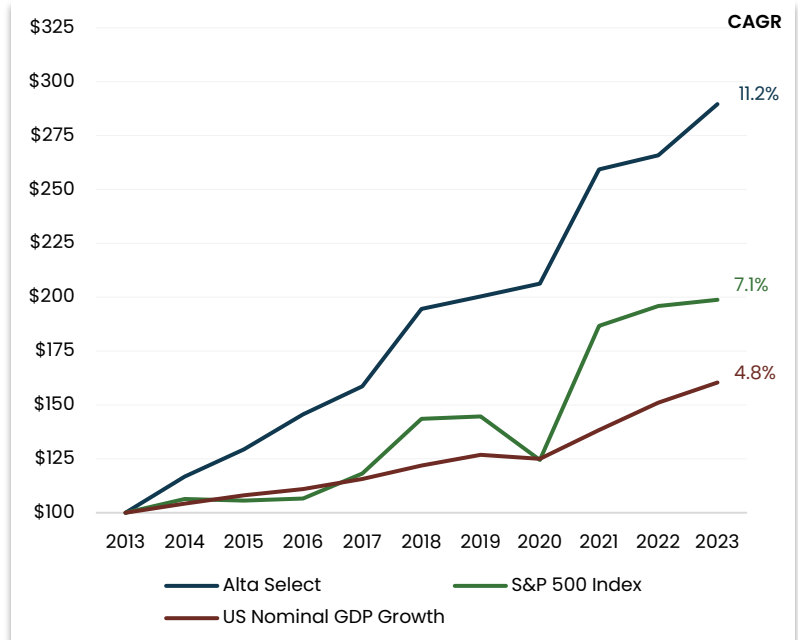

Further analysis of these firms using Alta's proprietary free cash flow model, helps define the present value of the company. Fundamental analysis validates the strength of the company's management, business, and future performance expectations.

Favorable culmination of this process is the recognition of a security whose current trading value is significantly less than its intrinsic value. For the security to establish a position, the Investment Committee must confirm eligibility, appropriate entry price target, and proper placement within the portfolio.

**OUR PORTFOLIO**

We seek companies that support our three pillars: profitability, growth, and valuation. We build portfolios of companies demonstrating exceptional EPS growth, ROIC, margins, and valuation.

To receive a complete list and description of composites and a list of broad distribution pooled funds and/or a GIPS Report, contact Alta Capital Management at 801-274-6010, or [Compliance@AltaCapital.com](mailto:Compliance@AltaCapital.com). The Select Composite includes all fully discretionary Alta Select equity accounts. The composite excludes portfolios with material restrictions imposed by the client that impair our ability to fully implement the intended strategy. Performance results are time-weighted total returns that have been adjusted for cash flows. Composite results have been aggregated monthly and weighted based on end-of-month portfolio valuations. The minimum account size for this composite is \$250,000. The U.S. Dollar is the currency used to express performance. Returns are presented gross and net of management fees and include the reinvestment of all income. Net of fee performance was calculated on an applied model fee basis of 1.0% annually, applied monthly. Past performance is not indicative of future results.
